Lakshman Yeluri

Senior Technical Program Manager at Amazon with 15 years of experience delivering large-scale, cross-org programs, including Generative AI data annotation platforms, across global engineering teams and senior leadership

Hyderabad, Telangana, India

Summary

Senior Technical Program Manager with 15 years leading enterprise-scale AI/ML data annotation platforms, HITL pipeline infrastructure, and 0-to-1 product delivery and digital transformation programs. At Amazon AGI-DS (8+ years), owned strategic platform initiatives for Amazon Retail, Alexa+, and Nova foundation Generative AI models — delivering systems processing 200M+ annotations annually at 98%+ quality with 2.5x throughput at similar cost. Delivered \$38M+ in Amazon program impact across cost savings, workforce productivity, and platform efficiency. Operated above-level through matrixed leadership of 10+ Program Managers and 30+ engineers across program workstreams, concurrently filling Product and Customer Engagement Manager capacity — owning product definition, roadmap sequencing, and VP/Director-level sign-off. Served as primary customer interface for internal Language and Research Scientist teams and their leadership on annotation data quality, scope, and delivery commitments for Nova and Alexa+. Across a 15-year career, delivered \$83M+ in quantified business impact — \$58M+ in cost savings and workforce productivity at Amazon, DuPont, and Beroe, and \$25M in revenue built from zero at Havells. PMP · AWS Solutions Architect Associate · MBA.

Experience

Amazon

8 years 9 months

Senior Technical Program Manager (TPM III)

November 2023 - Present (2 years 8 months)

Hyderabad

- Pioneered HITL annotation workflows for Nova and Alexa+ Generative AI foundation models, delivering 2.5x data throughput at similar cost — avoiding

- ~\$1M in annual annotator headcount through intelligent task design and automated annotation validation, sustaining 98%+ data annotation quality.
- Launched real-time annotation quality feedback system for 4,000+ globally distributed annotators, improving first-pass quality from 80% to 98% and freeing \$1.6M in annual ML scientist capacity (40 US-based research scientists, 20% review time eliminated).
- Delivered automated workforce planning system processing 200M+ annotations annually, improving utilisation from 68% to 95% — unlocking \$10M+ in workforce productivity across 4,000+ annotators without incremental headcount.
- Orchestrated multi-channel real-time task routing system achieving sub-5s user-perceived latency and 99.9% uptime, eliminating a \$5M annual cost drag (10% of \$50M+ budget) attributable to annotation platform latency.

Senior Program Manager, Tech, Amazon General Artificial Intelligence
July 2022 - October 2023 (1 year 4 months)

Hyderabad

- Drove Lean Six Sigma process improvements delivering \$10M in annual cost savings through annotator platform enhancements, increasing task completion rates by 10% across the global workforce.
- Scaled Virtual Customer Service business from 100 to 4,000+ agents in 12 months, reducing cost per contact by \$0.15 and delivering \$10M+ in recurring annual savings.
- Led multi-channel annotation platform launch coordinating 8 engineering teams and 3 vendors, enabling 10x capacity growth while compressing vendor ramp-up from 3 weeks to 1 week.
- Achieved 4.95/5.0 customer satisfaction for 8 consecutive quarters through Voice of Customer framework and proactive issue resolution — annotation quality uplift reduced support ticket inflow by 65%.

Program Manager II, Tech, Alexa Data Services
October 2019 - June 2022 (2 years 9 months)

Greater Hyderabad Area

- Exercised matrixed leadership over 10+ Program Managers and 30+ engineers across program workstreams — setting priorities, reviewing deliverables, and driving cross-functional accountability; stepped into PM and Customer Engagement Manager capacity during execution gaps, owning product definition, roadmap sequencing, and VP/Director-level sign-off.
- Served as primary customer interface for internal Language and Research Scientist teams and their leadership — ran program reviews, negotiated annotation scope and data quality SLAs, and presented delivery status

directly to science leadership; ensured annotation output met model training specifications for Nova and Alexa+ foundation models.

Program Manager I

October 2017 - September 2019 (2 years)

Greater Hyderabad Area

- Led enterprise compliance transformation for 60,000+ employees across Finance, Legal, and IT — compressing payment processing from 30+ days to under 1 day through workflow digitalisation and cross-org program governance.
- Drove Lean Six Sigma process improvements delivering \$10M in annual cost savings through annotator platform enhancements, increasing task completion rates by 10% across the global workforce.

DuPont

Senior Analyst

May 2015 - October 2017 (2 years 6 months)

Hyderabad, Telangana, India

Led procurement transformation programs for DuPont and Fortune 500 clients across Americas, EMEA, and APAC—developed financial forecasting and cost models driving \$2M+ savings through data-driven sourcing decisions and strategic vendor optimisation

Beroe Consulting (I) Pvt. Ltd

Sr.Research Analyst: Procurement Intelligence

August 2013 - April 2015 (1 year 9 months)

Chennai Area, India

Partnered with C-suite executives and Global Sourcing Directors of Fortune 500 companies across APAC, EMEA, and the Americas to design data-driven sourcing strategies for \$1B+ annual procurement portfolios, aligning sourcing execution with corporate financial and margin goals.

Built advanced R/Python-based statistical models to convert raw procurement and commodity data into predictive market intelligence, enabling proactive category decisions and unlocking multi-million-dollar annual cost savings per client through data-driven sourcing strategies.

Led financial modeling, benchmarking, and performance analytics for 5,000+ strategic suppliers, enabling evidence-based supplier consolidation, improved negotiation leverage, and optimized global supplier portfolios.

Modeled the impact of macroeconomic factors—logistics disruptions, regulatory changes, and tax policies—on commodity pricing, enabling clients to proactively mitigate supply chain volatility and avoid an average 6% price escalation across critical categories.

Havells India Ltd

Assistant Manager

February 2011 - July 2013 (2 years 6 months)

Hyderabad Area, India

Led 0-to-1 industrial electrical product division launch in South India competing against Siemens, ABB, and Schneider Electric—developed data-driven sales incentive programs, strategic OEM partnerships, and channel distribution strategy

Captured 10% market share and scaled revenue from \$0 to \$10M in first year, then to \$25M annual run rate across India through product bundling and channel portfolio optimisation across 200+ distributors

Education

International Institute of Information Technology – Bangalore

PG Diploma in Data Analytics, Data Science · (2017 - 2018)

Indian Institute of Technology, Hyderabad

Certification in Advanced Data Analytics Using R, Business Analytics · (2016)

IBS Hyderabad

Master of Business Administration (MBA), Marketing Management and Operations Management · (2009 - 2011)

St Martins Engineering College

Bachelor's of Technology/Engineering, Electronics and communications · (2004 - 2008)
